

Spring Data JPA Assignment

Course Management

1. Add methods in category dao:

- I. `public List<Category> search(String title)`
- II. `public int count();`
- III. `public Category categoryByTitle()`
- IV. `public List<Category> searchByTitleAndDescription(String key)`

2. Create CourseDao same as category one and complete all methods.
create,update,get,getall,delete,search...etc.
